how to solve complex real world business problems

### MAKE

a real difference by creating unique solutions that have impact

### PROSPER

in a close-knit community among great individuals

## AUGUST

August is the leading local strategy consulting firm in Finland. We are now recruiting several interns for 2018.

Typically our interns are at least 3rd year university students with demonstrated high performance in studies, work, or other fields of life. As individuals they tend to be intellectually curious, entrepreneurially driven, and results oriented. And compassionate too, the kind of people you'd want to have as your colleague.

If this sounds like you, don't hesitate to **apply for our 2018 internship by October 5, 2017.**

An internship lasts 2–3 months with flexible timing during winter, spring, or fall.

Find out how to apply at: [www.august.fi/join-us](http://www.august.fi/join-us)
